Google Meets & Live Surgeries (Years 1-6)

Dear Parents and Carers,

We were so pleased to receive so many positive comments and feedback related to our daily class Google Meet sessions as well as live surgeries that teachers and support staff have been offering to those pupils completing remote learning.

Attached to this email is a timetable for each year group showing when their class Google Meets and live English and maths surgeries are scheduled for each day. For children in Years 1-6, these sessions can be accessed through their Google Classroom and links can be found on their Google Classroom stream.

The live English and maths surgeries are an opportunity for pupils in each year group to access additional support and time with a teacher from their year group, to look over the learning activity for that day, ask any questions or clarifications that they need and share ideas with their peers.

As teachers are providing recorded videos for each session, pupils are able to return to these materials at any point as an additional support resource to continue their learning for that day.

In addition to the whole year group sessions as detailed above and provided within the timetables attached, teachers and support staff are also running a number of 1:1 readers and group interventions. Pupils will be specifically invited to these sessions and we would encourage all that are invited to attend. In some cases such as bubble closures where we have staff working from home, parental permission will be required in order for pupils to access these sessions and further information will be provided to parents of those pupils individually.

We hope that these sessions will continue to support your child(ren) when accessing their remote learning.

Kind Regards,

South Camberley Primary & Nursery School
